Full-time/ part-time Student Research Assistants (Computer Science Background) in the Department of Geography
(To commence in July, 2020)

Applicants should be current or graduated taught Master students at the University of Hong Kong who have (i) a Bachelor's or a Master's degree in Computer Science or closely related disciplines; (ii) proficiency in python programming; (iii) knowledge and experience in computer vision and machine learning techniques for image/video processing; and (iv) preferably familiarity with cloud platform such as Microsoft Azure. He/she should be responsible, organized, and be able to communicate effectively with people from different backgrounds. The appointee will help to apply computer vision and machine learning techniques to support research projects on smart mobility and smart cities led by Professor Becky P.Y. Loo.

The appointment is expected to commence in July, 2020 and to continue for one year, with the possibility of renewal subject to satisfactory performance. For part-time position, the appointee is expected to work around 8 to 19 hours per week, with flexible work time and work locations. For full-time position, appointee is expected to work around 40 hours per week on HKU Centennial campus. If you are interested, please send your CV, cover letter, and other supporting documents demonstrating your qualifications to Mr. Feiyang Zhang at feiyangz@hku.hk (circulating to Professor Becky P.Y. loo at bpyloo@hku.hk) to apply for the post.

A highly competitive hourly salary commensurate with the year of study and work experience will be offered. A maximum of five positions will be offered.

Review of applications will start on July 6, 2020 and continue until the position are filled.
